Why Choose PS Upgrade Pro?

From unique automation technology to innovative strategies, to expert advice. Learn more about why you should choose PS Upgrade Pro as your PeopleSoft 9.2 PUM upgrade valued consulting partner.

We offer a uniquely specialized automated PeopleSoft 9.2 upgrade customization code retrofit service. Our code retrofit service is fast, professional, and highly cost effective. By using specialized tools and technology the code retrofit work of an upgrade of any size can be done within one week. Our services are designed to help our clients thrive in today's fast-paced emerging world.

Organizations of all shapes and sizes trust PS Upgrade Pro to assist with their PeopleSoft application upgrades. PS Upgrade Pro facilitates effective decision making and enables their clients to meet specific business requirements with a focus on quality, knowledge transfer, process simplification, optimization, enhanced visibility, and elimination of customizations.

We provide custom solutions that are tailored to your system's unique configuration and distinct business requirements, not generic solutions that may or may not work for you. We provide support services which are interactive and highly responsive where the consultants that work with you are senior resources that have 20+ years of experience with PeopleSoft applications and technical infrastructure.

Although most of our work is completed remotely, where needed, our consultants are mobile and can be on site to work with you on resolving high priority issues, urgent project timelines or to provide an occasional onsite presence to foster team building and partnership.
